Requires \$5 million of tax revenue collected from nonresident sales of real property located in Arizona to be distributed to the general fund, after which \$2 million is distributed to the Seriously Mentally Ill Housing Trust Fund, after which any remaining monies are distributed to the Housing Trust Fund. Monies in the Seriously Mentally Ill Housing Trust Fund from tax collections from nonresident sales of real property located in Arizona may be spent for seriously mentally ill persons in community living homes and behavioral health residential facilities that meet other specified requirements. The Arizona Health Care Cost Containment System Administration is required to issue a request for proposals for a third-party entity to conduct a program study that measures the outcomes of seriously mentally ill residents in each of these settings. Up to \$10 million of the monies deposited in the Housing Trust Fund from tax collections from nonresident sales of real property located in Arizona must be used exclusively for capital projects, rental assistance and services for homeless youth and families, and must supplement and not supplant homeless youth and family funding from other potential sources. A person licensed to conduct escrow business is required to file an information return of sales of real property located in Arizona that are reported under specified federal reporting requirements. The filing deadline is March 31 for sales of real property that closed by December 31 of the preceding calendar year. By January 1, 2020, the Department of Health Services is required to adopt rules to allow a behavioral health residential facility to be a secure facility if the behavioral health residential facility is the least restrictive environment that meets the resident's treatment needs and the resident is an incapacitated person who meets other specified requirements. H2231: NONHEALTH PROFESSIONS; OCCUPATIONS; REGULATIONS

Establishes a rebuttable presumption that the public is sufficiently protected from unregulated practice by market competition and private remedies, including third-party or consumer-created ratings and reviews and private certification. The state may regulate a profession or occupation only if there is credible empirical evidence of present, significant and substantiated harm that the unregulated practice threatens the public health, safety or welfare. For a state agency that administers an occupational regulation, the sunset review report from a committee of reference (COR) is required to include a recommendation that the Legislature repeal the occupational license, convert the license to a less restrictive regulation, or instruct the state agency to seek legislation or adopt rules to reflect the COR's recommendation to impose less restrictive regulations or redefine the scope of practice.

S1271: PURCHASER DWELLING ACTIONS; NOTICE; COMPLAINTS

Various changes relating to dwelling actions filed by a purchaser. A seller who receives a written notice of the basis of a dwelling action is required to forward a copy of the notice by certified mail, return receipt requested, to the last known address of each construction professional who the seller reasonably believes is responsible for an alleged defect that is specified in the notice. The seller's construction professional is added to the process for the right to repair and replace a construction defect. Subject to Arizona rules of court, for each construction defect found to exist, the trier of fact in any dwelling action is required to first determine if a construction defect exists and identify each seller or construction professional whose conduct may have caused, in whole or in part, any construction defect. The identified construction professionals must be joined as third-party defendants, if feasible. The trier of fact is required to determine the relative degree of fault of any defendant or third-party defendant, and is required to allocate the pro rata share of liability based on relative degree of fault. The determination of whether a construction defect exists and who may have caused the construction defect must be bifurcated from and take place in a separate phase of the trial or alternative dispute resolution process from the determination of the relative degree of fault of any defendant or third-party defendant, unless the court for good cause finds that bifurcation is not appropriate. Also, a covenant, clause or understanding in, collateral to or affecting a "construction contract" or "architect-engineer professional service contract" (both defined) involving a dwelling that purports to insure, to indemnify or to hold harmless the promisee from or against liability for loss or damage is against the public policy of this state and is void to the extent that it purports to do so. Some exceptions. Retroactive to July 1, 2019, the repeal date of the Construction Liability Apportionment Study Committee is moved to October 1, 2020, from July 1, 2019. AS PASSED SENATE.

S1397: REGISTRAR OF CONTRACTORS OMNIBUS

Various changes to statutes relating to the Registrar of Contractors (ROC) and the regulation of licensed contractors. The list of persons not required to be licensed as a contractor is modified. A joint venture or other combination of persons or organizations is not required to obtain a separate contractor's license in its own name if at least one member holds a contractor's license in good standing with the ROC and other specified conditions are met. While engaged as the qualifying party for a licensee, the qualifying party is responsible for any violation of ROC statutes by the licensee. If a person who qualified for a license ceases to be connected with the licensee, both the licensee and the qualifying party are required to notify the ROC in writing within 15 days after the disassociation. The licensee must requalify through another person within 60 days after the date of a disassociation or the license is automatically suspended by operation of law until the licensee qualifies through another person. A person applying for a contractor license or for renewal of a contractor license to engage in residential contracting is required to pay an assessment of up to \$600 during the biennial license period for deposit in the Residential Contractors' Recovery Fund (RCR Fund). Statute governing eligibility for awards from the RCR Fund are repealed and replaced. An award from the RCR Fund is limited to residential real properties. The RCR Fund is prohibited from exceeding the actual damages suffered by the claimant as a direct result of a contractor's violation, and the maximum individual award from the RCR Fund is \$30,000. An action for a judgment that may subsequently result in an order for collection from the RCR Fund cannot be commenced later than two years after the date of the commission of the act by the contractor that is the cause of the injury or from the date of occupancy. If a contractor license has been revoked or suspended as a result of an order to remedy a violation of statute, the ROC is permitted to order payment from the RCR Fund to remedy the violation. The ROC is authorized to issue cease and desist orders or a citation for contracting practicing or transacting that constitutes a violation of statute or rule. Establishes civil penalties for violations. More. AS PASSED SENATE.
